

# Robin Jakobsson

SENIOR FRONTEND DEVELOPER

Robin Jakobsson is a senior developer who excels at producing the best user experiences available. His objective is to follow the guidelines which we set up as a group, and to write code that is understandable for the next developer that reads it. He believes in clear communication and respectful honesty.

Besides work he teach & practice Shorinji Kempo in a local club. He is also an aviation enthusiast, hang glider student and general aviation student. Robin has also arranged meetups for developers and is passionate about different open source projects.

Activities performed: Planned the stack and the technical side of the project, developed and delivered to customer. Trained the customer.

Competences: Cascading Style Sheets (CSS), WordPress, WooCommerce, Javascript

Project phase: Project Development / Permitting, Pre-Engineering, Execution, Installation / Erection

## Employment History

**2018 - 2020**

**Wavy AB** Software Engineer Lead

After we hired our new CTO, I stepped back to working primarily on our requirements, while simultaneously coding. During 2019-2020 we developed a 2.0 of our system using Clojure, utilizing Datomic as our database. Wrote ClojureScript to use React/Redux on the frontend.

**2014 - 2018**

**Wavy AB** CTO, co-founder

Worked with several other developers and designers in order to develop a business system for hairdressers. As CTO and co-founder I was part of everything from raising funds to meeting and supporting end customers. Launched apps for five different platforms: Android, iOS, macOS, Windows and the Web using Cordova and Electron. Managed the server setup (Meteor/NodeJS) with a hard focus on DevOps, in order to be able to release daily. At the end of this period I hired our next CTO, which would aid us in getting to our next goal.

**2013 - 2014**

**Hillmarketing AB** Creative Technologist

Worked alongside excellent creatives in creating ad campaigns for different brands, local and national.  
Was responsible for the technical side of things, how to utilize technology in exciting ways to support advertisements.

**2011 - 2013**

**STOPP** Web Developer

Worked on ad-campaigns, websites and more together with very talented people.

**2007 - 2010**

**Fröjd Interactive AB** Frontend Developer

I collaborated closely with designers to produce great websites.
